

Detail of Module Assembly Optical Tables

S.NO	Name and Specification of Items	A/U	Qty
01	Standard Optical Table Size: 1200 x1200mm Frame Height: 850mm Honeycomb Breadboard: 200mm thick	No	02

- Larger air chamber creates the most stable system.
- The pendulum structure is added to the OTA series to control the vertical and horizontal movements.
- Every support leg has the load capacity of 250 kgs(the weight of optical breadboard is not included). With Honeycomb Structure / Pendulum Suspension / Three-point Leveling / Steady Flow device, OTA series can achieve 1.5Hz, 95% all-round vibration isolation.
- Distance from the edge to first hole : 37.5mm or 1.5" on all sides.
- The surface flatness on any 60 cm² area was 0.1 mm.
- Type of structure can be assembled for convenient transport, with moving pulley
